

Club Makers' Multi-Purpose Bench Vice with interchangeable jaws

Specifically designed to reduce bench clutter, the Clubmaker's Multi-Purpose Bench Vice is made from highly ductile Steel for strength and durability, and backed up by our 5 years limited warranty.

This Golfmechanix "tuned" vice features a 360 degree swivel base with double lock down, a sturdy anvil and a set of machined aluminium cleats that double up as a ferrule setter. The cleats allow three different styles of jaws to be mounted on the vice in matters of seconds.

▲ Cleats double up as ferrule setter and hosel stopper.

▲ Jaws are replaced by prying them loose by inserting a flat key into the provided slot

Key Features:

- 1 High Tensile Steel construction
- 2 360 Swivel base with dual lock down
- 3 Sturdy anvil for metal working
- 4 Machined Aluminium cleats double up as ferrule setter and hosel stopper

- 5 interchangeable jaws
- A Vulcanized round for gripping,
- B Vulcanized V for shaft doctoring,
- C Aluminium V for heavy hacking.
