

210200 *Hosel Protectors*

Recommended for use with any shaft removal device, these hosel collars protect hosels from nicks and scratches during shaft removal.

.335, .355, .370 shaft tips.

210200W-P3 Woods pack of 3

210200I-P3 Irons pack of 3

210225 *Hosel protector*

The Aluminum hosel protector slips between the hosel and shaft gate. This eliminates the possibility of blunting, denting, caving or chipping the hosel brim when forcing a shaft out.

The hosel protector works with all types of shaft extractors. Fits over .335, .355, .370 shaft tips.
