

22-LSWP-5G 5G Stick-On Lead Swing weight patch

Stick on 5 gram lead patches used for altering swing weight, MOI as well as ball flight trajectory. Used during fitting sessions, these patches are stackable and can be easily removed without damaging the club-head finish.

22-LSWP-5G-P20 20 sticks per cartridge

Alloyed Lead strips are 30% denser and much thinner than rubberised tungsten patches.
