

220520 Precision Lead (Pb) Tip Weights

The GolfMechanix Precision Tip Weights (wates) are made from an alloy six times harder than pure lead, allowing the clubmaker to place maximum mass as low as possible. They are easily snapped for fractional weighing and maximum versatility. Packaged in bags of six with total counts selected for economical shipping.

GS	WT	Shaft Type	Packed	Pcs.
220520-GS-01G-PP40	2g	Graphite	6x40	240
220520-GS-04G-PP20	4g	Graphite	6x20	120
