

Industrial Golf Club Curing Rack on Wheels

The Industrial Golf Club Curing rack on wheels is the ideal solution for carting clubs out of the way just after assembly to let the epoxy bond cure without disturbance.

The cart accommodates up to 22 clubs of any type as the rack can be adjusted for lie and length in a matter of seconds.

The Base of the display is covered with an alveolar foam that moulds around the heads to prevent slippage when moving the cart.

The cart ships flat with all the accessories needed for self assembly.

Measures W36" xD10" x H28"

▲ Pivoting caster wheels

▲ PVC coated Shaft Rest

▲ Alveolar foam support
