

231601 Uni-Frame Golf Grip Display

Grip selection and sizing are essential elements of professional club fitting and in store retailing. This attractive counter-top grip display occupies very little space and is a cost effective solution.

The Grip display can be customized by adding a headboard and a logo strip inserted at the bottom of the display.

Grip spacing can be customized at will and offered in a range of custom colours.

Chromed shaft extenders 13" long to fit grips with a .580" and .600" core save both time and cost.

Specifications:

- Designed for both counter and slat wall panel display
- Rear track allows for custom back board insertion.(not included).
- Front slider labeled with most popular grip sizes.
- Displays up to 9 grips.
- Sturdy and weighty base. Will not tip over!

Rear slot accommodates an optional rear backboard (not included) which you may make yourself or have professionally to display your custom logo or message. Backboard may be printed on any standard 3mm heavy stock.
